

SERVICES FOR DAYCARES

These services aim to meet individual needs by providing targeted, practical support and solutions with the goal of improving the everyday reality of children and their educators in their daycare environment.

NEEDS ASSESSMENTS WITH ON SITE COACHING

clarify needs and receive assistance in applying techniques and interventions in real time

AUTISM AWARENESS AND ACCEPTANCE

autism specific presentations, workshops and information sessions for staff

NEEDS ASSESSMENTS WITH RECOMMENDATIONS

clarify needs and receive individualized recommendations and resources

NEEDS ASSESSMENTS WITH INTERVENTION PLAN

clarify needs and receive a step by step intervention plan to address the situation

DAYCARE INTEGRATION

support around understanding and addressing challenging behaviour, as well as atypical differences in learning and integration of a child who is experiencing difficulties in the areas of language, communication, emotional regulation and/or social skills.

Specific and personalized interventions can include:

- increasing skills in the applicable developmental areas,
- effectively communicating with children who are not yet speaking,
- teaching effective communication skills to a child who is having difficulties with using speech,
- managing refusals and aggressive behaviour and teaching appropriate alternatives,
- increasing the participation of children experiencing difficulties in communication and social situations,
- understanding autistic thinking or other manifestations of various diagnoses,
- adapting and applying typical methods within individual environments and realities.

SITUATIONAL CONSULTATIONS

ideas and aid for how to make changes in specific situations, including dealing with aggressive behaviour, lack of progress/change, changes in behaviour, inappropriate behaviour, teaching specific skills etc.

WORKSHOPS

information and discussion about how to practically and realistically address the needs of children

BRAINSTORMING SESSIONS

group discussion about effectively meeting individual and staff needs, clarifying staff roles, rethinking schedules, activities and programs in complex situations

TRAINING SERIES

applicable information and techniques for providing effective education/care in one of three categories

Autism	Human Needs	Supporters of non-speaking individuals
for those who are directing supporting an autistic individual on a regular basis	for those who are looking for applicable recommendations in best practices for supporting any individual	for those who are working directly with individuals who are non-speaking, or who are losing speech

HELP FOR FINDING RESOURCES

assistance to research programs, laws and policies, fill out paperwork, find resources etc.

CONNECTION CIRCLES

a safe space, free of judgement, for parents, family and caregivers to express, share and brainstorm solutions with people who are in the same situation
